2. SET

transport

Our set comes in a van. (< 3,5t, length 6,5m).

Please make sure that the way from the loading dock to the stage is clear of obstacles.

description

Our set consists of:

- a painted backdrop
- a monolith made of bricks (composed of 7 parts, about 15-20kg each)
- a steel bar hung at a height of 70cm by means of braided cords, attached to a fly-bar
- the steel bar is covered with blankets
- some bottles and a small tub filled with water (the water will be spilled on stage during the show)
- 2 small piles of bricks

furnished by the organising venue:

- Black dance carpet covering the whole stage

3. LIGHT

Kabinet k brings:

- Light console DMX-5pin out.
- L711 en L712

What we ask from the organiser:

- See light plot attached.
- Could you mail us a scheme with positions of the fly-bars?
dirk.de.hooghe@telenet.be
